

Year 3/4 Spring Home Learning

Welcome to your new Home Learning Tasks!

Each week, you should complete the English and Maths tasks that are listed below. Then, if you like, you can choose some of the tasks in the grid at the bottom of the page to complete over the term. You will need to bring your Home Learning book to school every Friday so new tasks can be added.

Weekly English Tasks

1. Read your home reader at least three times a week with an adult.
2. Log on to Oxford Reading Buddy at least once a week. Can you complete a quiz?
3. Complete the Grammar Task, which is stuck in your Home Learning book.
4. Learn and practise your 6 weekly spellings. Remember that you will have looked at these words in class so don't forget the tips and tricks you've learnt to remember them!
5. Log onto LetterJoin and have a go practising the letters we have practised in class.

Weekly Maths Tasks

1. Log on to Mathletics for at least 15 minutes.
2. Log on to Times Tables Rockstars for at least 15 minutes.
3. Complete the Arithmetic Task, which is stuck in your Home Learning book.

Optional Extra Tasks

Can you complete three tasks in a row?

Investigate the rock cycle. Investigate materials: stone vs. bronze vs. iron. Learn about different layers of soil.	Make a model of Stone Henge and/or build a prehistoric shelter/roundhouse.	Bake rock buns, rocky road biscuits or marble cake. Write a recipe with step by step instructions.
Research living things and their habitats. Take pictures of living things in their natural habitat when out and about and write about them.	Find out about how fossils are formed.	Research prehistoric animals, such as the woolly mammoth, and create a model, drawing or painting.
Research a country in Europe outside the UK. Compare human and physical geographical features to those in the UK.	Write a non-chronological report about prehistoric life.	Compare life in The Stone Age to now. What is the same? What is different? If you lived during The Stone Age, what would you miss the most and why?
